RANK ★ SYSTEM CAPABILITIES

RANK 3/3

FULL AUTOPILOT

Opens **and** closes positions with **zero human input** — scans, decides, executes, and books every 5 minutes, 24/5.

RANK 3/3

AI OVERSEER

An **LLM decision engine** vets every candidate trade against live news, macro & regime context before a single order is sent.

RANK 3/3

ML ENSEMBLE

Four models — TimesFM, Kronos, Vault8 BiLSTM & LGBM — forecast price, range and tail-risk to shape each setup.

RANK 3/3

CAPITAL FIRST

100% cash-secured. No margin, no naked options. A collateral guard blocks any trade the account can't fully fund.

RANK 3/3

REGIME RADAR

VIX-adaptive posture across **Reclamation · Wasteland · Nuked** — the bot dials risk down as the market heats up.

RANK 3/3

TOTAL TRANSPARENCY

Append-only ledgers + a Slack relay on every scan. Each fill is reconciled to real Schwab positions — nothing hidden.
